## **DETAILED ACTION**

### ***Withdrawal of Notice of Allowability***

1. The indicated allowability of claims 45-60 is withdrawn in view of the reference to Byles #6,161,776. Rejections based on the reference follow.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 45-60 are rejected under 35 U.S.C. 102(b) as being anticipated by Byles #6,161,776. Byles discloses the irrigation method of supplying irrigation water to a panel of porous material 55; distributing water throughout the panel; and trapping air in spaces. The mat can also be used for planter bed areas (col. 8, lines 44-45). The panel being formed from open cell foam material including polyurethane. The irrigation system may or may not include valves so as to allow control of water flow.

### ***Allowable Subject Matter***

4. Claims 61-77 are allowed.

### ***Response to Arguments***

5. Applicant's arguments, see amendment, filed 2/14/07, with respect to the rejection(s) of claim(s) 45-77 under 102(b) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Byles '776.
